INTRODUCING THE MIGHTY ROOSTER

With a unique folk influenced rock sound that is all their own, The Mighty Rooster has been a favourite live act around the West Country, and festivals further afield, for over 20 years.

The five members bring a wealth of experience drawn from a wide range of different bands and styles, a high standard of musicianship and powerful vocals. Their original music, mixed with a few 'lost classics', is individual and accessible, always getting the audience attention, the crowds singing and toes tapping.

The band has produced three CDs of original music: 'Gargoyles', 'The Red Room' and 'Can't Believe Your Ears', with an accompanying DVD 'Can't Believe Your Eyes.'
